

RIVERDALE TECH TIPS

How to Log In to a Riverdale Google Account

1. Users can log in to a Riverdale Google account from any web browser at riverdaleschool.com/login.

A screenshot of the Riverdale School District login page. The page has a white background with a blue vertical bar on the left side. The text "Riverdale School District" is centered at the top in a large, bold, black font. Below this, the text "Google Apps Sign On" is centered in a smaller black font. There are two input fields: the first is labeled "E-mail Address or Username" and the second is labeled "Password". Below the input fields is a blue button with the text "Sign in" in white.

2. Since this login page is specific to Riverdale, **entering the @riverdale.k12.or.us portion of usernames is not necessary.**
3. After entering their Riverdale username and password, users will be logged in their Riverdale Google account.
4. To avoid connectivity issues, be sure that any other Google users sign out of their Google accounts before logging into a Riverdale Google account.
